New Life Programming

Hello and I trust you have all had a great time over the holidays and are now looking forward to the New Year with keen interest and well-formed powerful outcomes.

Last year New Life Programming & Swindon College continued to build on our working arrangement delivering high quality NLP training at a fantastically low price. This year we are planning to bring you even more options.

I am currently working on a second NLP course that will build on the Foundation Skills that has been running very successfully now for many years. The content will stretch your current learning and build on your current knowledge. Two of my colleagues have expressed an interest in adding some content; this will include some meditation work, and some additional esoteric work.

In addition the "So you want to be in sales" course has completely been rewritten and now runs for six weeks.

I have been asked to develop and run some additional courses using NLP technology and associated disciplines. I have begun work on these though I am unsure where and when these will be running.

### ***Kick Start™***

A motivational course that will be high energy and have a high impact on your conscious and you unconscious mind, this course will change the way you look at the future for ever.

### ***Restoration™***

This course builds on the work I have recently be doing with Robert Dilts and the work of Dr Stephen Gillingham. This workshop looks at identity, cleans up a cluttered and negative past and teaches you about the importance of a true-life balance and how to achieve it. If you have an interest in any of the above please contact me so that I can begin to plan dates etc.

### **The First Step For Getting Better Results**

How dramatically we can change our results is largely a function of imagination. In 1960, it was a technological impossibility for man to travel into outer space. Within ten years, however, the first man stepped out onto the surface of the moon. The miraculous process of converting the dream into reality began when one voice challenged the scientific community to do whatever was necessary to see to it that America "places a man on the moon by the end of this decade." That challenge

awakened the spirit of a nation by planting the seed of possible future achievement into the fertile soil of imagination. With that one bold challenge the impossible became a reality.

THE SAME PRINCIPLE APPLIES TO EVERY OTHER AREA OF OUR LIFE!

Can a poor person become wealthy? Of course! The unique combination of desire, planning, effort and perseverance will always work its magic. The question is not whether the formula for success will work, but rather whether the person will work the formula. That is the unknown variable. That is the challenge that confronts us all. We can all go from wherever we are to wherever we want to be. No dream is impossible provided we first have the courage to believe in it.

To Your Success,

This article was written by Jim Rohn. More interesting articles in the next issue.

There are some other developments, which I will let you know about when the ink is actually on the paper,

As ever I am available for personal coaching or for consulting on personal development projects etc.

The plan for this newsletter is that you will receive it every other month or more frequently if there is some interesting news or development that I think you may be of interest. In future issues I will also include some of the questions that I get asked via the "Ask Tony" form on the web site. If you have a question be sure to ask, no telling how many other people may also benefit.

I wish you happiness and ongoing success for the coming year.

Kind regards

Tony Nutley *MANLP MTLTAp*
